The premising appearance of FRIDAY the 13th day of AUGUST. crops, the absolute removal of all fear of famine, by the immense importations from America, and the firm, judicious course of the Bank of England, and great leading Houses, had all contributed to pro-

duce a general revival in financial affairs. The amount of Bank of England paper in actual circulation had decreased during the week preceding the 4th from £18,-315,051 to £18,741,490, while the amount of bullion in its vaults had been increased £14,608.

Provisions, &c. (We omit our quotations of Cotton, as they would be of little concern to our readers. We may state, however, that pri-

Our long sequalitance with the Proprietors enable us to bespeak for them the entire confidence of the public. We know that their teas, both in quality and price are all that is stated of them. Many a lover of the fragrant herb has been compelled to eachew the drinking of tea in comsequence of its injurious effects, until at length he has become hopeless of buding, among any of the imported varieties of tea in our market, a kind which had not such an effect. In this, however, such persons will be agreeably disappointed. The Pekin The Company have commenced the importation of choice varieties of Garden teas, of most delicious flavor, cultivated and picked with great care, which have heretofore never been introduced into this country, except as presents to importers. Among these they have an Oslage, mild as zephry, and fragrant as a rose which we specially recommend to all nervous persons. Its effect upon many of those who have tried it, has been to make them confirmed tea-drinkers. Ladics who havesused it, my they never before drank such tea.
